

Size Guide

We know finding the right fit online can sometimes be tricky, which is why we've created the Hell Bunny Size Guide to make things simple. Our sizing has been developed using a mix of international charts and real feedback from our customers, giving you a standard that feels true to the Hell Bunny fit. As a UK brand, our measurements can sometimes come up a little more generous than others, so checking the guide below is the best way to get it right.

If you're between sizes, you're always welcome to order more than one option to compare, but please remember that return postage is the customer's responsibility. The chart shows body measurements, not garment measurements, so you can match them more accurately to your own shape.

Each Hell Bunny style is a little different thanks to unique fabrics and design details, For the best results, measure your bust, waist and hips (in your underwear) and choose the size Closest to you.

How to measure:

Bust: Not Required for Capris

Waist: Wrap the tape around your natural waistline, usually just above your belly button.

Hips: Measure around the widest part of your hips, making sure to include your bum.

Body Measurements Chart (cm)

Size (cm)	Bust	Waist	Hips
XS	84	65	93
S	89	70	98
M	94	75	103
